

LCD A Team

6/1/21

Attendees: Sean, Phil, Aubin, Natalie

Technical Document

- **Aubin** will provide feedback in the google doc on the tech report
- **Sean** will complete the histograms for the focal features
 - Sean took scores provided and overlaid onto planning units, using zonal statistics
- Comments:
 - Are you explaining why certain layers were scored a certain way?
 - **Natalie** will add more detail about scoring each specific focal feature
 - Sensitive data is omitted, and that is okay
- Draft to tech team by June 7th

Social, Economic, Cultural Group

- Friday June 25th at 10am
 - **Natalie** will send the zoom info to Sean

Creating Conceptual Models

- A good guiding practices info: <https://conservationstandards.org/about/>
- Can also look at [the models that are already drafted](#)
- Also, more guidelines here: http://www.fosonline.org/wordpress/wp-content/uploads/2010/09/FOS_Conceptual_Model_Guide_April2009.pdf
- Once we have drafted the model, we can look more closely at what is the critical “cost” piece with Subject matter experts

Tech Team Meeting

- Sean give a 10 minute overview of the tech report
- **Natalie** will reach out to Kathy and see if she is ready to present
