

LCD Analysis Team: 7/20/21

Attendees: Mary, Sean, Aubin, Matt, Natalie, Phil

- Conceptual models
 - Uses for the models
 - Underpinnings for the cost layers; have to be able to explain and communicate how cost layers limit our ability to do conservation
 - Use as outreach for subject matter expert panelists
 - Mary is building out webpages for each species, including the conceptual models
 - Reminder that the Task tracker is here - https://docs.google.com/spreadsheets/d/1PJo3JJ1eiOiFKx-9YNwuN-fCMyMD5EUkSzxc66UFN_/edit#gid=1768764490
 - Assignments conceptual models
 - Phil and Natalie will send sean and Mary the conceptual models for salmonids, ungulates, and five needle pine
 - Matt will create the grassland conceptual model
 - Aubin will do the riparian model
 - Sean will complete the shrublands
 - Sean will send riparian and grasslands info to Aubin and Matt
 - Process for doing these conceptual models:
 - Do a web search for the conceptual model - look for published information
 - - craft that into something that is more meaningful for our purposes
- Expert Panels
 - Sean has been documenting people that are known experts that we've contacted - need more work on the habitat based features
 - Survey
 - Sean is recreating the questions - the google form got deleted - mary and sean are reconstructing the survey in surveymonkey
 - Survey should take no more than 30 min
 - Natalie and Phil think about who we need to reach out to and revise the survey monkey draft when it is completed
- Social, Cultural, and Economic Team
